

Hilltop Listening Project

Re: Hilltop Stories, Visual and Audio Reflections Audio File Contact Sheet for The Hilltop Listening Project

Description:

The Hilltop Listening Project was a concept developed by Whitney Brady and Jordan Pugsley as a way to document the oral history of the Hilltop by the people themselves. They recorded interviews with 20 people with deep connections to the Hilltop, featuring someone born in every decade from the 1920's through 2000's.

All of the recordings were done in the Spring of 2017.
