How to find a book with a five-star rating in the TPL catalog

1. Visit www.tacomalibrary.org to get started

2. Select “advanced search” near the catalog search bar.

3. If you see a message about editing the query, click "ok." If you do not see this message, move to step 4.

4. Where it says “enter your advanced search here...” type sr:5 and click “search”

5. You’ll see a list of all items that have a five star rating. Use the filters to narrow it down to the format and type of book you’re looking for.
